The Thirty-Fourth Normal Commencement.

Report of All the Exercises, and Full Text of the Baccalaureate Address.

The Juniors - Training School - Societies-Conservatory of Music-Class Day-The Alumni-Commencement Day-The Banquet.

The school year of the Michigan State Normal School, which was closed with the splendid series of exercises reported in these columns, has been as satisfactory and pleasant and successful throughout, as have been any that have preceded it in the more than a third of a century of its existence. In number of students attending, the year just ended stands at the head, the enrollment being 47 greater than last year The recent vote of the representatives of the people of Michigan, cheerfully granting the Normal an appropriation of \$60,000, that its accommodations and facilities might be increased and its Nellie Hankey, Ada Ballou, Ella Taypossibilities for usefulness made greater, may be accepted as a direct testimonial to its increasing popularity and appreciation by the people.

The Commencement program was inaugurated in Normal Hall Friday afternoon, with the

JUNIOR CLASS EXERCISES.

The entertainment was opened with a vocal solo by B. St. James, "Holy, O, students and members of the alumni. Holy Saviour," a selection that pre- In the evening occurred the reunions of sented well the vocal capabilities of our the cympic and Crescent Societies, the mercantile friend. The invocation former at the Hawkins House and the was then pronounced by the Rev. Mr. Cheney, and was followed with the Olympic reunion was celebrated by a Class History, by Robert C. Yerkes. grand banquet and with music and Mr. Yerkes referred to the grand privileges of the historian who has for his "Salutation" by Prof. W. H. Cheever; theme great men, or brave, illustrious "The Olympic Ladies," by Prof. Chas. deeds, but what a fall from such a privi- E. St. John; "The Olympics of the ple that dabble in a multiplicity of lege was it to him accorded, that of pre- Past," by Prof. C. H. Rankin; "The junior persuasion. In spite of this McCone, and "The Olympics of the seeming sadness over his numble rank Future," by W. H. Dorgan Mr. Geo. as a historian, however, Mr Yerkes presented the miscellaneous facts and statistics of which class histories are usually composed in a manner unusnally interesting and entertaining

A vocal duet, "Two men of the Olden Time," a character song, by Geo. F. Key and C. H. Palmer, was in matter and manner of a humorous-pathetic character, and was excellently given.

The class poem, written and read by Miss Alice G. Toms, was a bright, witty production. The runs and plays upon faculty names gave evidence of originality and talent. The last lines of the poem,

There's nonsense on our pencil, But there's moisture in our eyes, was a fitting closing couplet to the

many good features of the poem. Miss Rosetta M. Whitney recited the of the Association, had charge of the poem, "Pledged with Wine," in a man- meeting and was assisted by Rev. Mr. ner that brought out the peculiar pathos

of the lines.

effect that only a master could produce. An essay by Miss Emma Ackerman, ciation might continue to widen and entitled "Black the Heels of Your extendits influence during the next and Quartet followed the oration, and this Boots," was freighted with wise words coming years, to the degree it had so was followed by the class Prophecy, of advice in pleasing combinations. done during the past year. Her closing sentences were especially good: "Young men, if you would be successful make your acts truly your own, and make them ever illustrative Sunday evening, is printed in full on of the best of which you are capable. Be careful of your personal appearance; heard by an audience limited by the the coat does not make the man, but it

causes him to look much better after able to obtain even standing room. he is made. You cannot afford to denv attention to what may be termed the little things of life, and never, no never, forget to black the heels of your boots.

A declamation by Bert E Richardson, "Life is what we make it," was a good selection, and was well delivered.

A vocal selection by the Pease Ladies' Quartet, "Wind of Evening," was given as are all the selections by that talented quartet, Misses Matie Champion, Kittie Smith, Leda Bellows and Claribel Champion.

The oration by W. F. Lewis, "Gen. Grant and the Southern Confederacy," was something out of the usual line of school orations, and in that wherein it differed from others were its merits most pronounced. He pictured the formation and rise and fall of the Southern Confederacy with historical accuracy: the kindly greeting that was extended to the hosts and leaders of secession by the great powers of Europe, and presented well the fear and doubt that accompanied the questions. Arthur Bunton, Lakey Buck, Willie S. Carpenter, Lura A. Davis, Marie A. Dickinson, Florence R. Fuller,

The Institution. that was then repeated in every shop and store and by every fireside, "Could the rebellion be put down?" The orator's introduction of Gen Grant was well timed, and his faithful following of the progress of the gallant soldier from Shiloh to Appomattox was vivid and most interesting, and pathetic and true were his final sentiments in reference to America's great warrior, statesman and citizen, whose eyes were closed in death on Mt. McGregor.

The class prophecy, by Miss Perlia B. Ferris, was a poetical and highly colored composition, and it was received by the class and audience with enthusiastic approval.

The class song, written by Miss S. Evelyn Watson, was rendered by the class as a closing exercise. And so ended the existence of the Junior class

THE CONSERVATORY CONCERT. To attempt to give any fair report of the closing concert of the Conservatory of Music would necessitate the expenditure of time and space, which in the present busy season we have not at our command. The program was quite lengthy, being composed of twenty-one numbers, but its length was by no means complained of by any member of the audience that filled every foot of available seating or standing room in Normal Hall. The vocalists of the evening were, Misses Kittie Smith, Blendina Reese, Dora Grayson, Rosette Whitney, Leda Bellows, Matie and Claribel Champion, Nellie Hankey, Myra Pattison, Lizzie Millspaugh, Martha Barnard, and Messrs. B. S. Boyce, Fred. Stebbins, Marshall Pease and C. H. Palmer; and the instrumental participants were Misses Ruth Putnam, Helen Hewitt, Lizzie Millspaugh, Lutie Lee, Grace George, Jennie Richards, Julia Bellows, Fannie Strong, lor and Myra Pattison. Mr. Pease, Mr. Abel and Mrs. Pease assisted the participants at the organ, with the 'cello and with the conductor's baton.

SOCIETY REUNIONS. Saturday was utilized as a day of visiting and social enjoyment by the students of the year just ended, with their friends from distant homes and former latter in the Normal building. The toasts. The program announced a

F. Key was chairman of the evening. The Crescent reunion program consisted of an address of welcome by President W. E. Hicks, an address by Geo. H. Purchase, History of the Society, by Evan Essery, and a Parody by S. D. Brooks. Mr. Andrew Paton of the class of '86, was expected to be present and deliver an address, but being unavoidably detained, he forwarded a very interesting paper which was read

before the society. THE CHRISTIAN ASSOCIATION.

The last meeting of the Student's Christian Association, held in their hall in the Conservatory building, at 3 o'clock Sunday afternoon, was a meeting that will long be remembered by all present. Mr. T. L. Evans, President songs and prayers and words presented, An organ solo, by Prof. Pease, gave there was evidenced a sadness over the the large audience a fair illustration of | fact that this was the last meeting, but his mastery over the magnificent instru- more expressive than the sorrow over senses with the sweet indistinctness of | the benefits they had derived from the a pleasant dream, and that nearer and Christian privileges offered them by clearer became, ending at last with a the Students Christian Association durwas expressed the wish that the Asso-

THE TRAINING DEPARTMENT. Commencing at 9 o'clock Monday morning, in Normal Hall, occurred the graduating exercises of the young students of the Training Department. The program, consisting of recitations and vocal and instrumental music, was quite lengthy, but was entertaining and enjoyable from beginning to end. The exercises were under the supervision of Prof. W. H. Brooks and Miss Abbie Pearce, critic teachers, and the music was in charge of Miss Matie Champion and Mr. C. H. Palmer.

The following are the graduates from the grammar and primary departments of the Training School, the former of whom enter the Normal proper at the commencement of the next school year. and the latter will be advanced to the grammar department.

Arthur Bunton,

Josie M. Hemphill, Nellie Holden, Jeanie M. McNicol. Matie L. Newton, Anna M. Pomeroy, Jessie L. Robbins, Ada Smith.

CLASS DAY EXERCISES.

At 2:30, Monday afternoon, began the exercises of the graduating class. They were opened with prayer by the Rev. Dr. McCorkle, and the formal exercises began with an eight-hand

piano selection, Wallenhaupt's Grand

March, by Misses Ballou, Strong, Good-

ison and Murray. The Salutatory, by Miss Lucy E. Lowe, was a production that gave sincere pleasure to the audience, to whom it was principally addressed, and was a cause for no little pride and satisfaction to the class. Miss Lowe began her address with a cordial welcome to all present, and followed with an interesting picture of the life and duties of the which long, hard lessons, difficult problems and the duties and discouragements incidental to school life, figured as the enemy to overcome. And these battles, she said, were as but preparatory drills to the great fight to be waged ontside the Normal halls 'gainst ignorance and illiteracy. Miss Lowe made use of no superfluous sentences, but E. Kniss was chosen secretary. presented a model Salutatory, in all its

The Class History by Fred S. Lamb. gave the details of the organization of the class and followed it through its various receptions, elections, etc. He also gave the expected series of facts in the line of age, color of hair, size of feet, weight, individual ambitious expectations, with aggregates computed in all directions. The history of the class was interwoven with bright and good suggestions, closing with the expressed hope that as individuals the members of the class of '87 might so guide and govern their lives that it could be truly said of them, they had fought the good fight, they had finished the course, they had kept the faith.

A male quartet, Messrs. Marshall Pease, Carol Palmer, H. B. Edwards, W. H. Brooks, gave a selection at this point that was received with the approval it well deserved.

Miss Mattie McFarlane, in an essay, discussed the "Breadth of Narrowness." The truth presented by Miss McFarlane was, that in seeming narrowness, in the constant attention and investigation given to special lines of study and discovery, lies the secret of real breadth and true greatness. Peomatters evolve little from any that senting the history of a class of the Olympics in the Present," by W. J. really benefit the world. The development of a nation or race is accom plished by each person doing well the narrow work that comes to him. The essay was replete with profitable and uating years pertinent suggestions, and was well

An original poem, written and read by Miss May E. Woodin, was in the form of an Invocation to Memory. In the lines of the poem was followed the course of the class from the primary schools to its last days at the Normal, and to Memory was made the plea that such days should never depart. The poem was well-written and furnished proof that Miss Woodin was not a stranger in the realms of poetic art.

The oration of the day, by Mr. T. L. Evans, who had chosen for his subject 'The Factors of Civilization," was a feature of the program that gave real pleasure to all who heard it. During the past two years Mr. Evans has gained an enviable reputation in Normal stage. He proved himself master of expression and phraseology, and preburst of loud, delightful melody, was an ing their life at the Normal, and by all that impressed and enthused his hear-

> A vocal selection by the Pease Ladies' given by Mr. George Fowler and Miss Helen Patrick. Better selections for the presentation of the collection of ridiculous and witty suggestions and observations, than Mr. Fowler and Miss Patrick could not have been made. They presented themselves as having met ten years after their parting as sionary and Mr. Fowler in the role of a book agent. They recognized each other, and then followed an interesting conversation relating to old Normal days, and an exchange of information as to the careers of their classmates. The information was given without spirits of some especially timid memthe possibilities presented by the darening and realizing that it was not and would not be true, could follow as a inheritance, claimed with pride. consoling reflection.

The Valedictory, delivered by W. H. Foster, was an address at once tender, in an oration which gave to the fishing pathetic and strong. There was in the interests in general an importance not voice of the valedictorian, as well as in commonly realized by the average toiler his words, that which was eloquent and on farms and in shops. This was ne and practical. There is no place but expressive. He referred to the happy cessary in order to command from his requires special powers and peculiar the teachers and the gratitude that sion of the fisheries dispute with Can- some are not fitted to supply. ness such a separation brings.

building, where a boulder provided by was good. the class of '87 would be formally presented to the school.

CLASS PRESENTATION. The presentation was made from a carpeted stand erected for the occasion. The Ypsilanti Cornet band was present and opened the exercises with music, after which Dr. McCorkle offered prayer. The President of the class, Mr. McIntosh, then introduced Mr. W. J. McKone, who in an address that was not surpassed by any of the day, formally presented the rock to the State Normal, its faculty and students. Mr. McKone had been given but a short time to prepare his address, but the student as an aggressive campaign, in time to him was ample, as the admirable tone and spirit of the address could hardly have been improved upon.

ALUMNI MEETING The meeting of the alumni at Normal Hall, Monday evening, was attended by about one hundred members. Prof. W. S. Perry, President of the alumni, called the meeting to order, and Lydia

Prof. Goodison, chairman of the ex ecutive committee, explained that at the last meeting of the alumni, Supt. H. M. Jones, of Erie, Pa., had been selected as orator for the present meeting, but his attendance had been prevented by other duties. It was therebe utilized as a time for visiting and social enjoyment.

Officers for the coming year were then chosen, as follows:

President—C. F. R. Bellows.
Vice President—H. W. McIntosh.
Secretary—Lydia E. Kniss.
Executive Committee—Prof. Goodison, Miss
Frump, A. Jay Murray.

The executive committee were authorized to prepare the program for the next meeting.

On motion of Prof. Bellows a vote of thanks was extended to the members of the legislature for its generous appropriation for the new building.

Hon. S. S. Babcock was in favor of the motion, but suggested, in view of the especially valuable and intelligent service rendered the Normal by Senator Monroe and Mr. Beecher of the House, that their names be especially mentioned in the vote of thanks. Mr. Babcock's amendment was accepted by Prof. Bellows and the vote of thanks

Miss Trump suggested that it would be interesting to know what classes were represented in the meeting, and call for the representatives of the different classes to stand up as their grad-

He quoted the results of Horace Mann's inquiries to factory managers in New England, which showed that in ordinary factory labor the educated brain the first class of graduates. invariably produced the most skillful and valuable operative, as answer to the objection that education for toilers is a waste. The other objection, that society has no right to maintain institutions of which only a few can avail themselves, was equally baseless. The benefits of education are not confined to the scholar. All invention and material progress, in the benefits of which all share, are the fruits of education. The thoughts of the highest thinkers. perhaps too abstruse for our comprehension, filter through all the gradations of fore suggested that the present meeting | mind to reach and benefit the lowest. Utility, however, is not the chief measure of value. Culture is not of most value as a means to an end-it has an intrinsic value in itself. We are not valuable for what we can do, but for what we can be-getting and doing are ever mere servants of being.

The beautiful quartet, Lead, Kindly Light, arranged by Prof. Pease, was delightfully rendered by the Pease Ladies' Quartet, Prof. Pease at the or-

Miss Eliza McDonald, of Cheboygan, described a Roman pageant, under the title of The Triumph of Aurelian, and in the guise of a letter from a visitor in the ancient capital to his sister at home. It never seems to us the proper thing for essays to be declaimed like orations, without reference to the manuscript; and still less does it seem so when an essay has the form of a personal letter. An oration assumes the manner of an extemporaneous address, received the unanimous vote of the and a recitation or declamation repeats a production committed to memory: An essay belongs to neither of those, and a personal letter especially demands attention to the written lines. A good actor with such a part, though able to recite the lines backward, would give studious pains to the perusal.

Personal Liberty was the theme of Mr. Evan Essery, of Elmer-a timely theme in these days of growing abuse and prostitution of its proper idea: and the wholesome influence of our system of Christian education is evidenced by the frequent appearance in commencement papers of such protests against socialism and anarchism as Mr. Essery

Miss Jessie M. Rogers, of Eaton Rapids, gave some thoughtful and useful reflections upon The Romance of Reality, by which she ment the reality of romance. There is romance, material for interest and sentiment, in all our affairs, though we are prone to see it only in the conditions of others, Maud Muller-like. Circumstances are not so unequal as they seem, and the glamor we see in the lot of others they see in those that shall bless.

After the rendering of "Volkslied, of diplomas to the class of ninety-nine graduates took place, and Principal Sill addressed to the class of '87 a few words of approval, congratulation and admonition, and the Doxology by the whole congregation led by the great organ closed the exercises of the thirtyfourth Normal Commencement, a third of a century since the one at which the present Principal formed one third of

THE COMMENCEMENT DINNER. As has been customary for the past few years, the grand series of commencement exercises was closed with a commencement dinner, given in Conservatory Hall. The dinner this year was served by the Ladies' Library Association, and the artistic and beautiful appearance of the table, together with the abundance of substantial and dainty eatables spread before their guests, seemed a fitting climax to the splendid feast for the mind and soul that all had been enjoying, and won for

the ladies many words of praise. Hon. B. W. Jenks, President of the State Board of Education, formally welcomed the guests and alumni, to the dinner, and when the discussion of the delicacies had been concluded, intro duced Prof. Sill as toastmaster. Prof. Sill gracefully accepted the situation and with an introduction fitting and away. Amos McClellan resented the appropriate, presented Hon. Joseph Estabrook as the first speaker.

Mr. Estabrook, after a few witty pref atory sentences, gave an interesting account of his early efforts as a student and teacher, including his first visit to the University in 1840, then of very humble pretentions indeed, but since grown to such splendid dimensions. He was proud of the University, he than washis pride for the State Normal School. The Normal was nearer the hearts of the people than any other institution in Michigan. He had visited of this story, if they try hard. ten such institutions in as many different states, and had found them all far heat of the middle of the month, June inferior to our own State Normal. Mr. Estabrook referred to the demoralized Michigan, and expressed a wish that 50 of the graduates of the class before him would go into them and assist in elevating their standard and increasing their

Lieut. Finley says in his weekly review that the daily average temperature throughout the northern states east of the Rocky Mountains for the past week was from 3 to 7° below the

Attention Citizens!

The will be a meeting at the First National Bank, Tuesday evening, July 5th, at 8 o'clock, of all citizens who are interested in the material prosperity of Ypsilanti. This meeting is to include not only members of the Citizens' Association but also citizens generally. Matters of general interest and importance will be discussed and an urgent request is sent forth that many be present.

There seems to be a mistaken conception in regard to the object of the Citizans' Association. It is not to boom water works, a gas well, or anything or anyone, it is simply to increase the material prosperity of the city and bring wealth into it. It is modeled after a very large and effective similar organization in Detroit. The third article of the Constitution explains the object, and is as follows:

The purpose and object of this Association shall be to promote the general welfare of the City of Ypsilanti, more especially by the establishment of a permanent bureau or office, from which shall be disseminated through the press and by circulars, all general or specific information regarding the advantages of Ypsilanti as a business community, as a place for the establishment of manufactories, as an educational center and as a place for a place for the establishment of manufac-sies, as an educational center and as a place residence; and also to provide a place fere regular meetings of this Association by be held, where its members may meet yether for consultation, and to examine the cords which are to be kept in accordance in the object and purposes of this Associ-

Phillips Brooks declares that Webster, Lincoln, and Beecher were the three greatest Americans of the century. Now, the superstitious will please observe that each had seven letremarkable, that three times seven are twenty-one, at which age Beecher, Webster, and Lincoln all attained their majority!—Life.

Paul Bremond left New York to seek his fortune in Texas more than forty years ago. The Texas Central Railroad owes its origin and construction to his energy and ability. Mr. Bremond is now well advanced in age, but still retains his activity. Mrs. Bremond, his wife, is a Southern woman who has made a name as a poet and writer of marked talent.

Miss Anita Lucille Cody, daughter of "Buffalo Bill," is a beautiful brunet of 22 summers, is tall, has a pretty figure, and is vivacious and well educated. Her father telegraphed for her to come to London the day after Queen Victoria paid the Wild West a royal visit. When she arrived in New York

had ten young chickens almost big enough to fry. One day at noon a hawk pounced down upon them and carried off one. The hawk did not go far until a lot of crows got after him. To the woman's surprise the next night at roosting time the lost chicken came up. It still bears the marks of the hawk, but it is able to stand up to its "dough pile."

London society is making much ado over Buffalo Bill. He is invited to innumerable luncheons, dinners, and receptions, and is becoming a regular "howling swell." If an American cares to be taken up by London society, he should go over there dressed like a Joe," "Elkhorn Charley," "Boy Knife Jim," "Dead-Shot Dick;" the American frontier.

There is a tradition that a cave near has he? Well, so have I, and a new Calhoun, Ga., contains vast quantities of silver. LIGHTENING THE BURDEN.

"Let me carry your pail, my dear, Brimming over with water?"
"No! I'll take hold, and you take hold," Answered the farmer's daughter.

And she would have her own sweet way, Even English writers in English pa- So she took hold, and he took hold, And it made the burden lighter. And every day the oaken pail

> Cool, and so softly dripping. And every day the burden seemed

Lighter by being divided;
For he took hold, and she took hold, By the self-same spirit guided. Till by and bye they learned to love

And each trust in the other, Till she for him, one twilight dim, Left father and left mother. The bridal blessings given,

And now the pair, without a care, Entered an earthly heaven.

When storm and sunshine mingled, they Would seldom trouble borrow, And when it came, they met the same With a bright hope of to-morrow.

While the western skies grow brighter, For she took hold, and he took hold, And it made the burden lighter. -[M. A. Kidder.

BASHFUL BILL.

"Wife," said Ed. Wilbur one morning as he sat stirring his coffee with one hand and holding a plum-cake on his knee with the other, and looking across the table into the bright eyes of his little wife, "wouldn't it be a good joke to get bachelor Bill Smiley to take widow Watson to Barnnm's show next week?"

"You can't do it, Ed; he won't ask her, he's so awful shy. Why, he came by here the other morning when I was hanging out the clothes, and he looked over the fence and spoke, but when I shook out a night-gown he blushed like

"I think I can manage it," said Ed; "but I'll have to lie just a little. But then it wouldn't be much harm under the circumstances, for I know she likes him, and he don't dislike her, but jnst as you say, he's so shy. I'll just go over to his place to borrow some bags of him, and if I don't bag him before I come back don't kiss me for a week, Nelly."

good-looking fellow, though his hair cause he did not know what excuse to and whiskers showed some gray hairs, make for not doing it himself. Then and he had got in a set of false teeth. and so he was. He had as good a and at once surmised it was that of hundred-acre farm as any in Norwich, with a new house and everything comfortable, and if he wanted a wife, many a girl would have jumped at hopper. But Bill was so bashful—al- said; he had to go on to Green's place. ways was-and when Susan Sherrybottle, whom he was so sweet on, to Green's, are you? snatched it as he ran, and, after jam- Bill, and low they all laughed as they ming his fist into it, stuck it, all dirty sat around the tea-table that night, but and rumpled, on his head. And now will conclude by saying that they went the hill, and what, oh, what will he do? fear of Gus Sockrider now. Then his coat fell out and he slipped it on, and then making a desperate spurt he clutched the back of the seat and scrambled in, and pulling the buffalo robe over his legs, stuffed the other beneath. Now the horse happened to be one he got of 'Squire Moore, and he got it from the widow, and he took it into his head to stop at her gate, which Bill had no power to prevent, as he was too busy buttoning his coat up to his chin to think of doing much else. The widow heard the rattling of wheels, and looked out and seeing that it was Smiley, and that he didn't offer to get out, she went to see what he wanted, and there she stood chatting with her white arms on the top of her gate, and her face his shirtless back clear to his bare feet beneath the buffalo robe, and the water from his hear and the dust from his hat had combined to make some nice little streams of mud that came trickling down his face.

She asked him to come in. No, he So saying Ed. started, and while he was in a hurry, he said. Still he did is mowing the fields we will take a not offer to go. He did not like to ask look at Billy Smiley. He was rather a her to pick up his reins for him behe looked down the road behind him But every one said he was a good soul, and saw a white-faced horse coming, Gus Sockrider. He resolved to do or die, and hurriedly told his errand. The widow would be delighted to go, of course she would. But wouldn't he the chance like a rooster on a grass- come in. No, he was in a hurry, he

Vallandigham.

One day in May, 1863, as Private S. N. Nunnelee, of the 51st Alabama regiment, was on picket about five miles from Murfreesboro, Tenn., a federal officer, entirely unattended and carrying a flag of truce, rode up and inquired for the officer in command, and through him for the colonel of the regiment. Col. J. D. Webb was on the line, a couple of miles to the rear, and Private Nunnelee was sent to inform him that the federals were desirous of passing the noted Clement L. Vallandigham within the confederate lines, as per order of the secretary of This move had been anticipated. war. as Vallandigham's sentence had been toward him, while the chills ran down promulgated, but the confederate government had no desire to accept him. Had he come as a recruit for the ranks he would have been welcome, but as a banished politician he was a guest whom no one cared to entertain. Col. Webb took his time about riding to the front, and as he got there Nunnelee was sent down the highway to investigate a second white flag. This was waving above a vehicle drawn by one horse and occupied by a federal lieutenant and Vallandigham. officer was driving and the banished politician was sitting very stiff and erect. But few words passed as the officer drew rein. He said to Nunne-

> "Here is Vallandigham, sentenced to banishment."

And to the great politician he said: "Come, I have no time to spare." "I protest against this outrage-solemnly protest," answered Vallandig-

A Story of Diplomacy.

The story goes back to the year 1880, says a writer in the London Times. The relations between Germany and Russia were strained. The German newspapers complained of the excess sive massing of Russian troops on the frontier. The Russian newspapers reolied by attacks on the attitude of the German press. Gen. Von Schweinitz, in spite of this tension, enjoyed the highest credit with Alexander II., to whose private circle he alone of all the ambassadors was admitted. He belonged to the small number of persons who played at the card parties the emperor was in the habit of joining every evening. One evening the emperor, seeing the German ambassador enter the room, went up to him hurriedly and in almost violent language complained of the attitude of the German press, of the perfidy of Prince Bismark, and of the indifference of the Emperor William, who tolerated this violence of the press and this underhand policy of the chancel lor. Gen. Von Schweinitz was quite taken back. However, his habitual self-possession soon came back to his relief. He said nothing. He had sufficient self-command to take his place at the emperor's table and to remain ccurred, with the exact words used by the emperor. When, at about 3 o'clock in the morning, he read over his report he became alarmed at the consequence to which the faithful reproluction of the words of the emperor might lead-words of which the immeiiate result would be his own recall. He took the report, threw it on the fire, and went to bed, intending to sleep ver it and to write his report in a calmer frame of mind.

He awoke very uneasy, and was about to breakfast when an aid-de-camp summoned him to the emperor. Alexander II., who was very emotional, threw himself into his arms, explaining how nervous he had been over-night, begged him to forget what he had then said, and talked in the friendliest way of Germany, the emperor, and the chan-cellor. Two month afterward all was arranged, and Gen. Von Schweinitz, being on leave of absence and on a visit to Prince Bismarck, told him what had passed between him and the ezar. My dear ambassador," said Prince Bismarck, tapping him on the shoulder "remember that I have rendered greater service by what I have not said than by what I have said.

CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Sorthwest—is the only true middle-link in that transcontinental system which invices and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Destine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Destine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Destine, Washington, Fairfield, Ottumwa, Galatin, Trenton, St. Joseph, Cameron and Centre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Council Bluffs, in Iowa; Galatin, Trenton, St. Joseph, Cameron and Cantre and Cant

THE CREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roached is thoroughly beliasted. Its track is of heavy steel. Its bridges are solid attractures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and racthodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOIT of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOIT of CARS, elegant DINING CARS providing excellent meals, and —between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown. A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, Et. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

SENATE. House bill providing for county local option was passed. The Senate refused to pass the House bill to provide for a State board of medical examiners and to regulate the practice of med'cine, and passed the House bill appropriating \$20,000 for the erection of monuments on the Gettysburg battle field at the points occupied by Michigan regiments. After some other routine business the Senate 22d. Adjourned. adjourned.

The Senate's session on the 16th was devoted entirely to the liquorlicense bill, which was robbed of two of its most important provisions. The license was cut down from \$500, the sum fixed by the House, to \$300 on both whisky and beer. The bond section was also amended so as to allow village saloonkeepers to obtain bondmen in any part of the township in which the village is located, instead of confining them to the village. Adjourned.

The Senate on the 17th passed a number of House bills, among them one authorizing Ionia to borrow money for public improvements, and one applying to Sturgis on the same subject. Two bills relating to compensation of stenographers, making labor a lein upon lumber, logs, etc., and a bill settling a claim of the Northwestern Manufacturing Company, of Detroit-an oleomargerine company put out of existence by a law afterward declared unconstitutional. The Senate has passed the bill providing for the inspection of mines and the appointment of a mine inspector, also preventing the employment of boys under 16 years of age in mines. The Senate passed the liquor tax bill by a vote of 31 yeas, Mr. Barringer alone voting no. The amendments made to the bill before it passed make it very like the present law. The tax is now as follows: On retailselling of still wine or malt liquors, asylum. wholesale and retail, \$500; wholesaling of spirituous liquors, \$300; upon sale of spirtuous liquors, wholesale and retail combinations, \$800. Adjourned.

House bills making an appropriation of \$56,512 for the State Blind School; to amend the act establishing the Detroit Water Board; to amend the act of 1883 for the promotion of public health; to detach territory from Kawkawlin and attach it to Bangor, in Bay County; the House bill establishing a State forestry commission; the bill declaiming forfeited all uncertified lands of Marquette, Houghton, and Ontonagon Railroad. The Grinnell purity of election bill was made the day the 21st inst. The bill passed to allow the Board of Aldermen of Detroit an annual salary of \$500 each, a total of \$16,000.

The Senate was in session all day on the 20th, spending the greater portion of the time on the Cole anti-insurance combination bill. The bill makes it a misdemeanor for foreign companies doing business in this State to combine to establish rates at which risks will be taken. The bill was much discussed and an attempt made to pass a substitute much more favorable to outside companies, but it could not be it passed to third reading in its orig- fall. inal form. The Senate has also passed years of age.

The Senate on the 21st spent a large portion of the day on the Grinnell election bill, which provides for uniform was passed in committee. At the grant of \$6 per month. evening session a new University Apfrom the vetoed bill only in that the physical laboratory item is cut down from \$75,000 to \$50,000. Gov. Luce may follow up his University bill veto with a veto on the Mining School bill. The House to-day took steps to have the bill recalled from the Governor, who has had it in his possession several days, but it has not been returned.

bill to prevent gambling in grain, 90 degrees in the shade. stocks, etc., designed to suppress "bucket-shops" was passed; also a bill providing for the incorporation after 1891 of Bay City; West Bay City, and Essexville in one municipality; also the Senate bill for the incorporation of business men's associations. The House committee of the whole spent some time in considering a bill to reduce telephone rates, but postponed its consideration without making any amendments. Adjourned.

In the House on the 16th an effort was made to take up the vetoed University bill in the absence of several of its friends, but the attempt was unsuccessful. The House passed an important school bill, which confers upon chairmen of county boards of examiners the same powers and duties exercised by county school superintendents in other States. A bill to reduce telephone rates was defeated. Adjourned.

The House on the 17th spent considerable time discussing bills to tax mortgages and defeated them. Another turn was taken at railroad-fare legislasidered. The vetoed University Ap-The bill providing for the government and regulation of the Upper Peninsula Prison on the same plan as the other racket. The victim is 74 years old. niggere 'Piscompalians. For Good Purposes.

Mrs. M. A. Dauphin, of Philadelphia, is well known to the ladies of that city from the great good she has done by means of Lydia F. Pinkham's Vegetable Compound. She writes Mrs. Pinkham of a recent in teresting case. "A young married lady came to me suffering with a severe case of Prolapsus and Ulceration. She com menced taking the Compound and in two months was fully restored. In proof of this she soon found herself in an interest ing condition. Influenced by foolish friends she attemped to evade the responsibilities of maturity. After ten or twelve days she came to me again and she was indeed in a most alarming state and suffered terribly. I gave her a table-spoon ful of the Compound every hour for eight hours until she fell asleep, she woke much relieved and evidently better. She con-tinued taking the Compound, and in due season she became the mother of a fine healthy boy. But for the timely use of the medicine she believes her life would have been lost."

Your Druggist has the Compound.

A Multitude of Ailments.

The ailments which afflict the kidneys and bladler are so numerous, that merely to name them would fill a space far outrunning the limits of this article. Suffice it to say, that they are both obstiate and dangerous. To their prevention Hostet ter's Stomach Bitters is well adapted. The stimu us which it lends to the action of the kidneys when they are lethargic, serve to counteract a ter dancy in them to lapse first, into a state of pernic ious inactivity, and afterwards into one of posi ve organic disease, which soon destroys their delicate integuments, poisons the blood and causes death. A double purpose is served by this depurent. It promotes activity of the kidneys, and expels impurities from the blood which have no natural channel of outlet except those organs. Constipation, biliousness, fever and ague, rheumatism and despepsia, are also remedied by this medicine of thorough action and wide scope.

STEWART PRINTING & STATIONERY CO.

The following words, in praise of DR. PIERCE'S FAVORITE PRESCRIPTION as a remedy for those delicate diseases and weak-nesses peculiar to women, must be of interest to every sufferer from such maladies. They are fair samples of the spontaneous expressions with which thousands give utterance to their sense of gratitude for the inestimable boon of health which has been restored to them by the use of this world-famed medicine.

JOHN E. SEGAR, of Millenbeck, Va., writes:
"My wife had been suffering for two or three years with female weakness, and had paid out one hundred dollars to physicians without relief. She took Dr. Pierce's Favorite Prescription and it did her more good than all the medicine given to her by the physicians during the three years they had been practicing upon her."

THE GREATEST EARTHLY BOON.

Writes: "I was a great sufferer from leucorrhea, bearing-down pains, and pain continually across my back. Three bottles of your Favorite Prescription' restored me to perfect health. I treated with Dr. for nine months, without receiving any benefit. poor suffering women."

THREW AWAY
HER
SUPPORTER.

Mrs. Sophia F. Boswell, White Cottage, O., writes: "I took eleven bottles of your 'Favorite Prescription' and one bottle of your 'Pellets.' I am doing my-work, and have been for some time. I have had to employ help for about sixteen years before I commenced taking your medicine. I have had to wear a supporter most of the time; this I have laid aside, and feel as well as I ever did."

WONDERS.

Mrs. May Gleason, of Nunica, Ottawa Co.
Mich., writes: "Your 'Favorite Prescription'
has worked wonders in my case.
Again she writes: "Having taken several bottles of the 'Favorite Prescription' I have regained my health wonderfully, to the astonishattending to the duties of my household.

TREATING THE WRONG DISEASE.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here or there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some womb disorder. The physician, ignorant of the cause of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Plerce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery.

distressing symptoms, and instituting comfort instead of prolonged

Mrs. E. F. Morgan, of No. 71 Lexington St.,

East Boston, Mass., says: "Five years ago I
was a dreadful sufferer from uterine troubles.
Having exhausted the skill of three physicians, I was completely discouraged, and so
weak I could with difficulty cross the room
alone. I began taking Dr. Pierce's Favorite Prescription and
using the local treatment recommended in his 'Common Sense
Medical Adviser.' I commenced to improve at once. In three
months I was perfectly cured, and have had no trouble since. I
wrote a letter to my family paper, briefly mentioning how my
health had been restored, and offering to send the full particulars
to any one writing me for them, and enclosing a stamped-envelope for reply. I have received over four hundred letters.
In reply, I have described my case and the treatment used,
and have earnestly advised them to 'do likewise.' From a great
many I have received second letters of thanks, stating that they
had commenced the use of 'Favorite Prescription,' had sent the
\$1.50 required for the 'Medical Adviser,' and had applied the
local treatment so fully and plainly laid down therein, and were
much better already."

JEALOUS
DOCTORS.

A Marvelous Cure.—Mrs. G. F. Spraguz.
of Crystal, Mich., writes: "I was troubled with
female weakness, leucorrhea and falling of the
womb for seven years, so I had to keep my bed
for a good part of the time. I doctored with an
army of different physicians, and spent large sums
of money, but received no lasting benefit. At last my husband
persuaded me to try your medicines, which I was loath to do,
because I was prejudiced against ithem, and the doctors said
they would do me no good. I finally told my husband that if
he would get me some of your medicines, I would try them
against the advice of my physician. He got me six bottles of the
'Favorite Prescription,' also six bottles of the 'Discovery,' for
ten dollars. I took three bottles of 'Discovery' and four of
'Favorite Prescription,' and I have been a sound woman for four
years. I then gave the balance of the medicine to my sister, who
was troubled in the same way, and she cured herself in a short
time. I have not had to take any medicine now for almost
four years."

THE OUTGROWTH OF A VAST EXPERIENCE.

The treatment of many thousands of cases of those chronic weaknesses and distressing filments peculiar to females, at the Invalids fotel and Surgical Institute, Buffalo, N. Y., as afforded a vast experience in nicely idapting and thoroughly testing remedies or the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of estimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffied their skill, prove it to be the most wonderful remedy ever devised for he relief and cure of suffering women. It is not recommended as a "cure-all," but is a most perfect Specific for woman's beculiar allments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and staged to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system.

"Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous ercitability, irritability, exhaustion, prostration, hysteria, spasms and other discressing, nervous symptoms all commonly attendant upon functional and organic disease of the womb. It induces the womb. It induces the womb is a long through the substitute of the womb. The woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its refrests in any condition of the system.

"Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous ercitability, irritability, exhaustion, prostration, hysteria, spasms and other discressing, nervous granted disease of the womb. The Ppsilantian.

THURSDAY, JUNE 30, 1887.

THE members of the Legislature adjourned and went home last Saturday, and the presiding officers of the Senate and house adjourned and went home yesterday. Nominally, the bodies were in session the first three days of the week; but actually, only the engrossing and enrolling committes, and the presiding officers to sign bills, were in session. The Legislature is now ended. It has done some good work, and some not so good. The county option law we regard as valuable. The so-called high license law, except as it provides better facilities for enforcing the liquor laws, we value little. The failure of some of the railroad bills we deplore, but are glad of the act forbidding the use of stoves or furnaces in passenger cars. The act to prohibit the swindling graveyard insurance business, and that to put a stop to the swindling Bohemian oat business, and that suppressing bucket-shops, are salutary, as well as those breaking up the infamous dens of immorality in the upper peninsula, and raising the "age of consent" from 10 to 14 years. The value of putting political caucuses and conventions under control of the law is yet to be demonstrated. We are glad to see it tried. The legal rate of interest is reduced to 6 per cent.

By the act consolidating the Saginaws, Grand Rapids loses the place of second city, and, by the rate of growth from 1880 to 1884, will not regain it, and may even fall behind Bay City to fourth place, the Bays having also been consolidated by act of the late Legislature. The populations of the two places, in 1880 and 1884, were as follows:

SaginawEast Saginaw	10,529	13,767 29,100
	29,545	42,867
Bay City	20,693	29,415
Bay City	6,397	9,452
	27,090	38,867
Grand Rapids	32.016	41,934
Jackson	16.105	19,136
Muskegon	11,262	17,845
	Charles of the same of	

THE Kalamazoo Herald copies approvingly from the Chicago Herald an article intended to disparage the loyal record of Iowa during the war, which relies upon the alleged fact that the semi-loyal states of Missouri and Kentucky each furnished more men to the Union army than Iowa. That is not true, and it would be wholly insufficient to support the inference if it had been true. Missouri is credited with more men than Iowa, but Kentucky is not. The two border slave states had each nearly double the population of Iowa in 1860. The two Heralds say that makes no difference—it is not a question of percentages, but did Iowa give the Union cause as much help as Kentucky or Missouri? They say no, for she furnished less Union soldiers than they. Suppose she did-though, as we said, that is not true as to Kentucky-they also furnished enough men to the rebel army to keep their Union soldiers busy, and so negatived their own efforts and the net result gave no aid to the Union cause. Iowa, on the contrary, sent her seventy-five thousand men, and gave no balancing check. Further, Towa's mer were early in the field, and served largely for three years, while the border state troops were to a large extent later enlistments and served shorter terms. Every 894 people in Iowa furnished a hundred men, while in Missouri it took 1087, and in Kentucky 1541 people to furnish a hundred Union soldiers. It is absurd even to argue such a question, and we would not do it with a paper less fair and sensible than the Kalamazoo Herald usually is.

SAID Dr. Rexford of Detroit, in his last Sunday evening address, "It is charged by the organs of the democratic party that the republicans have enacted the temperance legislation as a scheme to save the party. Now what is the reverse of this? It must be a party scheming to save itself by enacting laws in behalf of the liquor traffic."

By the failure of the Fidelity Bank in Cincinnati, as one of the incidents of the wheat gamblers' operations in Chicago, hundreds of innocent people are ruined-rich and poor alike robbed of what they possessed. We deem ourselves virtuous to legislate against the bucket shops, while the heavier gambling of the boards of trade goes on.

DR. McGLYNN will better fit the place he chooses for himself if he shall set its depth and area to a smaller gauge than that of Luther. He has announced that he is the modern Luther. The place does not fit his dimensions.

THERE was a severe drouth in St. Louis, last Sunday, the saloons being all closed by the authorities. The suffering inhabitants fled by thousands to the country, where "gardens" were. open, to escape the horrible alternative of drinking water.

STEPS are already being taken for a vote in Tuscola county under the new county option act. The county gave 1301 majority for the prohibition amendment. The election cannot occur until October.

To get themselves killed is about the best use to which the Niagara Falls tight-rope walkers and rapids swimmers can put themselves. Steve Pierce, who of Detroit, as operator and general walked across the gorge on a rope the other day, put himself to that use. He got drunk and tumbled off the cliff, dashing his useless brains out on the rocks below.

For President of the United States, Chauncey M. Depew-is the not altogether senseless suggestion of the Detroit Evening Journal to the historymakers of the republican party.

FIRE added to its this year's upper peninsula destruction by wiping out \$700,000 at Hurley, the Gogebic metropelis, Tuesday, five business blocks being licked up.

AYER'S Sugar-Coated Cathartic If the Liver becomes torpid, if the PILLS bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them with good effect, in cases of Rheumatism, Kidney Trouble, and Dyspepsia.

—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customay strangth and soon regained my customary strength and vigor. — John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, raw. I was troubled, at the same time, with Indigestion, and distressing pains in The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.

—Samuel D. White, Atlanta, Ga.

1 have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss. My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.

— Theodore Esling, Richmond, Va.

BACCALAUREATE ADDRESS. To the Graduating Class of the MICHIGAN STATE NORMAL SCHOOL.

At Ypsilanti, June 26, 1887. By Prof. J. M. B. SILL, Paincipal.

The words of St. Paul recorded in the 13th verse of the 11th chapter of his epistle to the Romans, suggests the theme of my discourse this evening. "I magnify mine office." These words are easy of interpretation and explanatory paraphrase. By his office he means his ministry to the Gentiles. The context shows Apostle of the Gentiles, I magnify mine office." What does magnify mean in this connection? Undoubtedly to put forward as something of great value and of prime and greatness and excellence, to the special ministry whereto Christ has, by signal and unmistakable designation, called me. In its rendering of this passage the new version sets forth the thought intended to be conveyed more clearly than the old. consideration and the highest respect. It shows St. Paul full of a burning enthusism in its behalf. He was ready to conend earnestly with those who would undervalue or under-rate it, to speak

The passage which I have reverently quoted is, then, an ascription of honor and excellence to the ministry to which he had been called. But as the words stand, especially as recorded in the old and familiar version, to me at least, they suggest another thought, full of instruction and help. There is another and a nobler sense in which St. Paul magnified his office and glorified his ministry, for any ascription of grandeur to his appointed work, even when conveyed in his own eloquent words, is as nothing, when compared with the wealth of glory and brightness which his almost blameless life, his sublime courage and endurance, and his almost incredible labors shed upon it. Through these, he did indeed, in the broadest and truest sense magnify his office and make his ministry, to all the world and for all time, the synonym of unselfish devotion and heroic effort guided | exacting requirements; and your courage, by wisdom and unquenchable zeal, to the accomplishment of magnificent results. That this suggestion should assert itself

to the reader of the words, "I magnify

mine office," is neither strange nor unnatural. For St. Paul, it must be remembered, was preëminently a doer. What a scene of tireless though malignant activity is presented to us, in the picture drawn by St. Luke of the unregenerate Saul of Tarsus waging relentless and vehement persecution against the first disciples. Unsated and, indeed, rather spurred to still greater activity by the success of his cruel persecution of the saints at Jerusalem, and breathing out threatenings and slaughter against the followers of our work. There is no irksomeness in his Lord, he begged from the High Priest a labors because desire and effort go hand commission to the synagogues at Damas cus, that if he found any in this way whether men or women, he might bring them bound to Jerusalem. In his great plea before Agrippa he says, "I verily many things contrary to the name of Jesus of Nazareth, which thing I did in Jerusalem; and many of the Saints did I shut up in prison, having received authority from the chief priests; and when they were put to death, I gave my voice against them, and I punished them oft in every synagogue and compelled them to blaspheme, and being exceedingly mad against them, I persecuted them even unto strange cities." In what a striking light this passage presents to us the dominant characteristic of the man. The fierce and unremitting zeal in doing that, probably led the Master to select him of all men for the great work of carrying the word to Gentile world.

We know how he carried this strenuous energy in doing, into his missionary life. The wonderful activity of his ministry covered almost the third of a century of his vigorous prime and his declining years and, through all this period, his life is true to the very key note of his character first sounded in the memorable words uttered by him when, on the road to Damascus, smitten down by the brightness of the light from heaven that shone round about him, prostrated, blinded, trembling and astonished, he cried, "Lord what wilt thou have me to do?" Even in that ror, the foremost word on his tongue was of doing, and his sudden conversion only changed the direction of his intense and aggressive activity.

This is a week of hurrying and thronging events and of labor and weariness for you all. I do not intend to add to its burdens by detaining you unreasonably to-night. I shall speak briefly, urging you to magnify your office, not by high-sounding or boastful words, but by worthy and fruitful deeds. Nevertheless, I shall not dwell upon actions in detail, because they are but the out-growth of the motives and impulses that spring up and flourish in the heart. If you are animated and impelled by real love for your calling, by a keen sense of its value and importance, and by a glowing enthusiasm in its behalf, these will inevitably find their expression in works worthy of you and honorable to the cause in which you are engaged. I shall to-night, then, address myself not to works themselves but to their source and efficient cause, to the motive for doing that ought to be regnant in the heart of every teacher, viz., love and respect for his calling.

To this end I shall attempt to show you, first, that a high estimate of any employment is essential to real success in it; then that the calling for which you have made preparation can justly claim your highest regard and respect, both by reason of

intrinsic worthiness and because it deals

and consequent growth. You approach to-night the threshold of mental knowledge of the anxious labors chosen path of life is sure to lead you, and, if you possess the largeness of soul, the self poise and confidence, the steady satisfaction in duty conscientiously done this, for he says, "In as much as I am the that no one on the face of the earth is child grew and waxed strong in spirit,

teacher. You have all made especial preparation importance and interest. It is as if he the main this has been done with an earnhad said, I exalt, I extol, I ascribe honor estness and industry worthy of the highest commendation. In many instances your opportunities for preparation have been won by the hard labor of your hands, by self-denial and determined effort made in the face of real difficulties. Such have especially shown qualities which all must Thus, "I glorify my ministry." This is a respect but which none except those who declaration of whole-hearted loyalty to- have in early years struggled single wards his calling and a proclamation to handed and unhelped, with similar disappreciate.

You are all eager to begin active duty and to test your powers and capacities by the criterion of actual trial. To-day my memory leaps over the thronging events boldly and convincingly in its praise and of a full third of a century of active and to be its zealous champion against all laborious life, and I see myself again standing in the same relation which you occupy to-day, to the institution which has done so much for you and for me and to which we all owe love and unswerving loyalty; to the State of Michigan, and to a prospective career as a teacher. The hopes of that time, the ambitions, the confidence 'shadowed now and then by flitting misgivings, are not forgotten. Indeed they are before me now, sharp in outline and undimmed by the lapse of

I am sure I do not lack genuine and profound sympathy with you and your aims and aspirations, in your hopes and in your anxieties and misgivings. God grant me power to counsel you wisely. I call upon you to magnify your office by your works, to honor it by your faithfulness and intelligent zeal; by the excellence and justice of your administration of its duties; by your strength in meeting its wisdom and steadfastness in bearing its responsibilities. This you can hardly hope to do unless your respect for it is deep and genuine. No one can achieve anything really great or good in a cause to which he is not profoundly loyal.

Your field of labor is, and ought to seem to you, worthy of supreme effort. This is essential to anything like genuine success. Your usefulness and your happiness depend in a degree greater than you can yet fully understand, upon your love and respect for the work to which you devote yourselves. The man who esteems and honors his calling is a free man indeed. He is master of himself and his desires to do, and this is the very essence and core of genuine liberty. To such, no obstacles are insuperable, and no discouragements can daunt the spirit of one who thought with myself that I ought to do is thus inspired by an honest and intelligent enthusiasm. The laborious details of his employment are no drudgery and no hardship, for they are means to an end upon whose accomplishment his heart is set. To such a man or woman only can come what I have called the joy of work.

> But they who hold their office in either contempt or indifference are slaves to circumstances and environments. A hard master, not of his own choosing, drives them to uncongenial toil. They go to their duty like a "quarry slave scourged at night to his dungeon." Their efforts are not the outcome and expression of their hearts, but are forced from them by some dominant and hated necessity. All the sweetness and freshness of life are trampled under foot and destroyed in the struggle with the thralldom that holds them in its merciless grasp. How servile and unworthy is such a life, how narrowing are its influences, how meager, contemptible and unsatisfactory, its results.

If the power over words that men call eloquence were mine I would exhaust its resources here and now to fire your hearts with love and enlightened enthusiasm for your calling and equip you with a clear sense of the magnitude of the responsi bilities which it involves. This ought not to be a difficult task, for it is an infinite moment of supreme amazement and ter- field of fruitful effort that lies before the earnest and conscientious teacher. The path in whose beginnings he directs the footsteps of childhood and youth, has no end, it shall be followed throughout the countless years of eternity.

He deals chiefly with the spiritual nature of those under his charge, with the child as an heir of immortality; with an intelligence and an emotional nature that shall never perish, with a capacity for knowledge and happiness to which no limits can be assigned. The lesson of to-day is the seed that shall grow, blossom and bear sweet or bitter fruit forever Wise and faithful direction in the way of wisdom, truth and holiness may mean a life of joy, full of beneficent usefulness and an eternity of happiness. Misdirection, on the other hand, may mean wreck and ruin irreparable, and perdition in the

Is there a juster measure of the dignity and value of any position in life than the magnitude of the responsibility which it involves? Then gauge by this standard the work of training a child in the beginning of an unending life.

What a work is this, how intricate and difficult, how large and grand when compared with the manipulation of anything material and perishable.

"The sun is but a spark of fire, A transient meteor in the sky. The soul, immortal as its sire, Shall never die."

incalculable possibilities. "The child is father of the man." says a have already had experience in this field cies of a possible noble manhood or and exhausting cares through which your meaning to teachers. Observe for your the whole course of Christianity. Observe calmness, the respect for childhood and how the Gospel has exalted the plane the trust in God that your future work is upon which childhood stands. The Mascertain to demand of you, you have also ter sanctified it in his own person. The experienced the joy of work and the deep Gospels give us but momentary glimpses better entitled to than the faithful, devoted filled with wisdom, and the grace of God was upon him." But meager as its history is the childhood of Christ has given an for the duties which you will assume. In inspiration to the art and the literature of the Christian centuries. The great masters have exhausted the resources of transcendent genius and skill in portraying its tender and beautiful scenes. The nativity, the adoration of the Magi, the flight into Egypt, the fair-faced youth reasoning with the doctors in the temple at Jerusalem, have thus become living and present realities to the Christian world, and given dignity and glory to childhood wherever the name of Christ is known and adored. the world that it is worthy of the utmost | couragements can fully understand and | Of all the glorious things that Christianity has done for man, there is nothing sweeter

and more touching than this. "Anecdotes of infancy, incidents of childhood, indications of future greatness in boyish years," says Cannon Farrar, "are a very rare phenomenon in ancient literature. It is only since the dawn of Christianity that childhood has been encircled with a halo of romance." And again, Women were not honored nor children loved in antiquity as now they are; no halo of romance or tenderness encircled them, too often they were subjected to shameful cruelty or hard neglect."

It is fitting and appropriate that Christmastide should be preëminently the bright and happy festival for children. On that day they are of right the garlanded, crowned and sceptered kings and queens and they justly receive the homage of love and tenderness.

You know how the Master in the fullness of his ministry enforced respect for childhood by loving words and gracious deeds. More than once he made little children types of those who are fit for the blessed ness of heaven. The story of his ministry leaves no room for doubt concerning his loving care for them. You remember when, Judea and Galilee being closed to him, he was sojourning in Perea, waiting for the fast approaching hour of his aton ing sacrifice, and already walking under the shadow of the cloud which grew darker and more terrible as his footsteps approached Calvary, "There were brought o him little children that he might lay his nands on them and pray; and his disciples rebuked them. But Jesus said suffer little children and forbid them not to come unto me, for such is the kingdom of heaven, and he took them up in his arms, put his hands on them and blessed them."

It is the great privilege of the teacher to work in line with the benign influences of Christianity and with the works and words of its founder, in the exaltation of principles rather than upon the suggestchildhood, and we are indeed slow of heart to understand and appreciate, if this thought does not inspire us with love and respect for our office.

I turn aside from the strict line of my address to further urge upon your consideration with such force as I can command the high place that respect for childhood and love for children ought to occupy in the catalogue of essential requisites for the teacher's office. I do so because, in my belief, there is, in the whole range of characteristics that make men and women fit for real usefulness in our profession, not one that would out-rank this. The great masters of our art have understood this, and none more thoroughly than Frederic Froebel, who has been reverently and lovingly called the "discoverer of childhood." I urge it upon your attention because, when it once takes possession of the teacher's heart, there comes an ennobling growth in the Christ-like spirit that drives into the background, if it does not uproot and destroy, the meaner and more selfish motives to effort; because it prompts us to call the memory of our own childhood to our aid in putting ourselves in the place of the little ones, and enables us to understand them and sympathize with their weaknesses, their ambitions, their joys, their sorrows and disappointments, to be tolerant of faults that arise from lack of criteria by which to estimate the moral quality of actions and lack of experience in judging of causes and effects, and to be mindful how easily in the early years of our own consciousness anger flashed into consuming flame, and how small were the causes of the cyclones of vexation, veath or sorrow that perturbed the profounde. Tepths of our souls.

Thus we bring to mind the seeming inadequacy of the motives that impelled us, and how little the great seemed to us and how great the little. Thus we may keep our hearts young and fresh and our sympathy warm and real. Thus shall we be ashamed to deal harshly or unjustly with children, or to unnecessarily deprive their springing life of a single moment of its God-given joyousness, or to allow under any possible circumstances the feeling of anger towards a child to find a lodging

To those who are consciously lacking in the spirit that ought to animate every one who undertakes the responsibilities of the teacher's life, it is encouraging and comforting to remember that the spirit of love and respect for their work is not a mere natural gift bestowed upon some and denied to others and incapable of acquirement by those in whom it is weak or wanting. The history of St. Paul is instructive in this direction, for not always had he been so profoundly impressed with the greatness of his office. That there should be anything in which to glory, in dealing for any purpose with the despised Gentiles, was foreign to every instinct of his natural heart. By birth and training, he was a de-

This truth is full of prejudices of his race, and the tendency of his training to a profound contempt of comfort and encouragement how love and all except his own people, he was slow to respect for the young runs parallel with grasp and understand, in all its fullness the vast scope that infinite wisdom had predetermined for his ministry. He was "not disobedient unto the heavenly vision" which consecrated him to the conversion of the Gentile nations, but at first he failof his early years. We know that "the ed to realize the greatness of his mission And hardly, until the Sabbath-day scene in the synagogue at Pisidian Antioch, did the logic of events and the growth in his soul of a great thought "force him to the sublime conclusions of his creed." Thus, twelve years after his conversion, did full realization and a more perfect understanding of the "heavenly vision" and the vastness of his far-reaching ministry come to

> Now the last words of the Master spoken in the hour of his ascension were understood in all their grand and solemn import, "Go ye unto all the world and preach the Gospel to every creature." Hence forth, as never before, the thought of the universality of Christ's church, embrac ing and enfolding all nations and peoples pore its fruit in the fiery heart of the great

To him had been committed the doc trine of justification by faith alone, and he grew strenuous and uncompromising in its behalf. Standing immovably upon it, he disputed every inch of ground as staunchly with his fellow Apostles as with his enemies. He withstood the brethren, among them even Peter, "to the face," because they would lay the yoke of works of the law on the necks of the Gentile converts. The growing intensity of his convictions in this direction drew him away from the fellowship and sympathy of the brethren whom he loved. It, in a degree, weakened his hold upon his beloved church at Antioch, but even this loss he made subservient to his dominant desire, for it urged him into a still broader field and a more extended Bishopric. Henceforth, the whole Roman Empire should be his diocese, and the great cities of western Asia Minor and southern Europe beyond the Ægean Sea,-Troas, Philippi, Thessalonica, Athens, Corinth, Ephesus, and Rome itself,-heard the word from his lips and through him became sharers of the 'unsearchable riches of Christ."

We see in this record how there was in the heart of the great exemplar of Christian missionaries constant growth in zeal and in love for his ministry. We see then that this spirit which I commend to you as the mainspring of real success in your work is capable of unceasing growth. You may be sure it answers kindly to appropriate nurture and cultivation. We may learn to love any honorable pursuit to which our duty calls us. Careful attention to details which are essential to success, familiarity with its problems and increasing facility in their solution, thorough and liberal preparation for daily work, habits of judging and acting upon the direction of enhancing our respect and regard for the business in which we are engaged. There is much in habit and use. A steady exercise of the will by which we hold ourselves firmly and systematically to duty begets a love of duty. We love to do what we know how to do satisfactorily

In your student life, you have, I preume, found certain branches of study distasteful and irksome, because you were groping in darkness, or at least, in halflight, but can you recall an instance in which this distaste survived a clear and distinct comprehension of the subject? Did it not disappear as soon as you girded yourself to the work, so soon as mastery over even a part of it enabled you to feel your feet on solid ground and gave you confidence to move on from conquest to conquest? You will also find efficient help in the study of the history of education and familiarity with literature, past and present, pertaining to it, for this will exhibit to you the struggles and the triumphs of the past and bring you into communion with the devoted and greathearted men and women who have made its annals honorable.

There is one whom in all reverence we call the great Teacher. If we, in the weakness of our humanity, cannot go far in imitating his matchless skill and divine, elf-sacrificing devotion, we may, if we will, gain strength and guidance from his olessed example, and follow, afar off, feebly it may be, and with often erring steps the path which he, so meekly but so steadfastly, trod. His gentleness and patience with the ignorant and with those slow of thought and dull of understanding, his gracious way of meeting those whom he taught, with parable and illustration suitable to their power to grasp and comprehend, his love and tender solicitude for children, are examples for the guidance and inspiration of all teachers who are earnest in their desire to worthily mag-

nify their office. I cannot more fitly close this address to oung men and women about to enter active life in a world where truth and error wage eternal warfare than by fortifying your courage with the words of an Amercan poet who sets forth the final issue of such conflicts under the figure of the defeat of the fitful and erratic northern lights in their attempt to drive the steadfast stars from their thrones in the skies-

The stars are watching at their posts And raining silence from the sky, And, guarded by the heavenly hosts, Earth closes her day-wearied eye.

A reign of holy quietness Replaces the tumultuous light, And nation's weary tribes confess The calm beautitude of night.

When, from the Arctic pit upstreams The Boreal fires' portentous glare, And, bursting into arrowy streams, Hurls horrid splendors on the air.

The embattled meteors scale the arch. And toss their lurid banners wide;

Heaven reels with their tempestuous march. And quivers in the flashing tide

Against the everlasting stars. Against the old empyreal right, They vainly wage their anarch wars,

In vain they urge their fatuous light. The skies may flash and meteors glare, And Hell inrade the spheral school:

But Law and Love are sovereign there And Sirius and Orion rule

The stars are watching at their posts, Again the silences prevail; The meteor crew, like guilty ghosts,

The truths of God forever shine, Though error glare and falsehood rage; The cause of order is divine And wisdom rules from age to age.

Faith, hope and love, your time abide: Let Hades marshal all his hosts, The heavenly forces with you side. The stars are watching at their posts

Astonishing Success.

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneu-monia, and in fact all throat and lung disease. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptives, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such medicine as the German Syrup cannot be too widely known. Ask your drug-gist about it. Sample bottles to try sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada.

Ugly and Hateful, but I couldn't help it. Everything went wrong with me, and I thought I hadn't a friend in the world; dyspepsia caused this, and for months I couldn't till I used Sulphur Bitters. bottles cured me.-Dr. Lewis, 22 Bow doin Street, Boston, Mass.

THE VERDICT UNANIMOUS. -W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of Rheumatism of 10 years' standing," Abraham Hare, druggist, Bellville, O., affirms: "The best selling medicine I have ever handled in my 20 years' experience is Electric Bitters. Chousands of others have added their testimouy, so that the verdict is unaninous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at Smith's Drug Store.

EXCITEMENT IN TEXAS. Great excite ment has been caused in the vi cinity of Paris, Tex., by the re markable recovery of Mr. J. E. Corley who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. Trial bottles of this Great Discovery for Consumption free Discovery for Consumption free at Frank Smith's.

MORTGAGE SALE.—DEFAULT HAVING been made in the conditions of a mortgage executed by George Moffit and Tirzah Moffit to Adaline S. Markell, dated December 8th, 1881, recorded in the office of the Register of Deeds for Washtenaw county, Michigan. December 9th, 1881, in liber 61 of mortgages, on page 374, upon which mortgage there is claimed to be due at the date of this notice, for principal, interest and attorney fee, as provided for in said mortgage, one thousand twelve dollars and fitteen cents. Notice is hereby given that said mortgage will be foreclosed by a sale of the mortgaged premises at public vendue to the highest bidder on the 22d day of July next, at 9 o'clock in the forenoon, at the southerly front door of the Court House in the city of Ann Arbor, in said county, to satisfy the amount claimed to be due on said mortgage and all legal costs, to wit: Those certain pieces or parcels of land situate in the township of Augusta, Washtenaw county. Michigan, and described as follows, viz: The southwest quarter of the northwest quarter of section thirty-six, and the south east quarter of section twenty-six.

Dated April 98th 1887 MORTGAGE SALE.-DEFAULT HAVING

Dated, April 26th, 1887.
ADALINE S. MARKELL,

D. C. GRIFFEN, Attorney for Mortgagee. TATE OF MICHIGAN, COUNTY OF WASH-STATE OF MICHIGAN, COUNTY OF WASHtenaw, ss. At a session of the Probate Court
for the county of Washtenaw, holden at the
Probate Office in the city of Ann Arbor, on
Monday, the 6th day of June, in the year one
thousand eight hundred and eighty-seven
beta in the matter of the estate of Isaac K.
Collar, deceased. On reading and filing the
petition, duly verified, of William H. Collar,
praying that administration of said estate
may be granted to William J. Canfield
or some other suitable person. Thereupon it is ordered, that Tuesday, the fifth
flay of July next, at ten o'clock in the forenoon
be assigned for hearing of said decease; and
all other persons interested in said estate, are
required to appear at a session of said Court,
then to be holden at the Probate Office in the all other persons interested in said estate, are required to appear at a session of said Court then to be holden at the Probate Office, in the city of Ann Arbor, and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further order ed that said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in THE YPNILANTIAN, a newspaper printed and circulated in said county, three successive weeks previous to said day of hearing weeks previous to said day of hearing
WILLIAM D. HARRIMAN, [A true copy.] Judge of Wm. G. Dory, Probate Register.

MORTGAGE SALE.-DEFAULT HAVING M been made in the conditions of a certa nortgage, bearing date the 17th day of Apr A D. 1880, and executed by Herbert C. Darlin mortgage, bearing date the 17th day of April, A. D. 1880, and executed by Herbert C. Darling of Augusta, Washtenaw county, Michigan, to William B. Clark of Ypsilanti, Mich., and recorded in the office of the Register of Deeds of the said county of Washtenaw in liber 53 of mortgages, on page 615, on the 19th day of April, A. D. 1880, on which mortgage there is claimed to be due at the date of this notice, the sum of three hundred and forty-three dollars and forty-seven cents, principal and interest, beside a reasonable attorney fee of fifteen dollars; and no suit or proceeding having been instituted at law to recover the same, or any part thereof. Now therefore, notice is hereby given, that, to satisfy the amount claimed to be due as aforesaid, and the legal costs of sale, and in pursuance of the power of sale contained in said mortgage, and of the statute in such case made and provided, the premises described in, and covered by said mortgage, to wit: The northwest quarter of the northeast quarter of section twenty three in town four south of range seven east, will be sold at public vendue, to the highest bidder at the north front door of the court house in the city of Ann Arbor [that being the building in which he Circuit Court for the county of Washtenaw is held] on the 18th day of July, A. D. 1887, it 10 o'clock, a. m. of said day.

Dated, Ypsilanti, Mich., April 19, 1887. 10 o'clock, a. m. of said day. Dated, Ypsilanti, Mich., April 19, 1887. WILLIAM B. CLARK, Mortgagee F. HINCKLEY, Attorney.

THE QUEEN'S JUBILEE.

The Scene in Westminister Abbey-Imposing Ceremonies-Americans Participating in the Festivities.

The scene at Westminister Abbey during the ceremonies attending the Queen's Jubilee on the 21st inst., are said to have been most brilliant. When the audience wounded. Sheriff Hogg, under authority was seated the scene presented was inof Gov. Knott secretly gathered a posse of comparable. When the sun shone brightly 160 men from Rowan and surrounding through the noble stained windows of the counties to arrest Tolliver and his men for abbey its rays fell upon an unaccustomed the murder of the Logans. On the ap- sight, and the picture was indescribable. proach of the posse Tolliver and ten others This audience, banked up as it was in took refuge in the Cottage hotel, which church, was anything but sombre. For trains near there, and then, surrounding lasted only long enough to enable the ren and citizens to come out. Entering was the life of recognition and of gossip, the town with 100 men the sheriff sur- and it graduated rapidly into a noisy hum. rounded the Cottage hotel and ordered This was startling to a person who entered suddenly, considering the place and who were buried there, but the stranger arrested and 100 men could not take what had struck him as desecration. Busy and interested as were the people making this irreverent congregation, some personages entered the abbey strong enough to compel general attention and recognition. When the Marquis of Salisbury, the Queen's Prime Minister, entered and proceeded to the place set aside for him, he as follows, giving him the proper auwas cheered. When Mr. Gladstone was | thority for the above letters: observed quietly edging his way to his seat, he was also cheered.

Such was the eagerness of those who had assured places in the audience at Westminister to be on hand that scores of Lords and Ladies repaired to the edifice at unnecessarily early hours, and, as many of them were admitted without having partaken of any breakfast, it was a tory of each flag and the circumstances exchanged in such a crowd, and eagerly used by numberless aristocrats unable longer to withstand hunger and thirst. This business, when added to the hum, at times seemed irreverent, even Jubilee Day. in Westminister. On the procession nearing the abbey the troops saluted, guns were sent to the President and the were fired, the bells of the churches rang State of Ohio took steps to enjoin the out merry peaks, and flags were run up, the cheering being continued until the Queen had passed into the west door. After passing through the vestibule her Majesty was conducted to the grand dais under the lantern tower. She was surrounded by thirty-two members of the royal family.

The scene in the abbey when the Queen entered was dazzling. Ten thousand people were seated. They all rose. vomen discarded their wraps and revealed the full splendor of their beauty and attire. Three tiers of galleries had been built in the abbey, with seats for 10,000 people. The Peers and their wives were seated in the south transept. The Ambassadors and diplomatic corps were seated right and left to the Peers. Members of the House of Commons were placed in the north transept. The seats for the members of the reigning families of Europe, etc... were within the communion rails. The feud out of which the tragedy grew All the great learned societies and corbegan at the August election in 1884, when porations were represented, while the notables of the law, science, ant, and agriculture and workingmen's representatives from all parts of the United Kingdom had occurred in which John Martin was badly seats duly allotted to them. THE CAMP FIRE.

THE BATTLE FLAGS.

Recently R. N. Drum, Adjutant General of the U. S. Army, sent let-ters to the Govornors of the States recently in the rebellion to the following purport:

WAR DEPARTMENT, ADJUTANT GENERAL'S OFFICE, WASHINGTON, D. C., June 7, 1887.—Sir: The President of the United States having approved the recommendation that all the flags in the custody of the War Department be returned to the authorities of the respective states in which the regiments that bore them were organized, for such final disposition as they may determine, I am instructed by the honorable Secretary of War to make you, (in the name of the War Department) a tender of the flags now in this office belonging to the volunteer organizations of the State of Virginia, In discharging this pleasant duty; I beg you will please advise me of your wishes in this matter. It is the intention in returning each flag, to give its history as far as it is possible to do so, stating the circumstances of its capture and recovery. I have the honor to be very respectfully, your obedient servant, R. N. DRUM, Adjutant General.

The recommendation for this disposition of captured flags was made by Drum in a letter to the Secretary of War, who thereupon indorsed the letter

WAR DEPARTMENT, MAY 26, 1887:-The within recommendation is approved by the President, and the Adjutant General will prepare letters to Governors of those States whose troops carried their colors and flags now in this department, with the offer to return them as herein proposed, the hisstrange sight to see flasks and sandwiches of its capture or recapture to be given. WILLIAM C. ENDICOTT

Secretary of War. As soon as Gen. Drum's circular got into public print, protests from the Grand Army all over the country and from Governors of the Northern States proposed action. The President, however, on the 16th sent the following note to the Secretary of War, rescind-

ing his order: I have to-day considered with more care than when the subject was orally presented me, the action of your department directing letters to be addressed to the Governors of all the States, offering to return, if desired, to the loval States, the Union flags captured during the war of the rebellion by the Confederate forces and afterward recovered by Government troops: and to the Confederate States, the flags captured by the Union forces, all of which for many years have been packed in boxes and stored in the cellar and attic of the War Department. I am of the opinion that the return of the flags in the manner thus contemplated is not authorized by existing law, nor justified as an Executive act. I request, therefore, that no further steps be taken in the matter except to examine and inventory these flags, and adopt proper measures for their preservation. Any direction as to the final disposition of them should originate Yours truly, GROVER CLEVELAND.

THE DEATE OF AN ARMY DESERTER.

A handkerchief was placed over his eves, and ten men stepping out from the ranks took up their position a few feet distant from him, leveled their guns at the unfortunate man, and awaited the signal to fire. Each man aimed directly at the heart of the condemned-determined to make his death as easy as possible. At the word nine muskets were discharged and nine bullets pierced his breast He fell forward upon his face, and the current of life that a moment before pulsated so strongly through his veins an out and crimsomed the white sands which limed the shore. Nine muskets. I say, were discharged. It is a merciful provision-merciful to those who are required to execute the stern mandate of military law_that always on these occasions one gun is left unloaded and the weapons being drawn promisewously by the firing squad no one is able to tell whether he has drawn the unloaded gun or not. A singular circumstance remains to be related. A large white sea-gull hovered around the scene throughout the whole of the trying ordeal—sailing in circles a few feet above the head of the condemned man during the prayer and the reading of the death-warrant, and after the fatal discharge had been fired descending to the ground within a short distance of the body. Picking a few grains of sand, ascending again and circling around the coffin, it finally flew away till lost to sight.—Troy Times.

AN OLD WAR HORSE. One of the most interesting objects

of the Military Service Institute Museum is the stuffed remains of Sheridan's famous charger, Rienzi, of Winchester, as he was rechristened when he carried Sheridan on the famous ride from Winchester, "twenty miles away," to Cedar Creek. The remains were presented to museum by Gen. Sheridan with a memorandum, from which it appears that the horse was of Black Hawk blood, and was foaled at or rear Grand Rapids, Michigan, late in the fall of 1859. While the Second Michigan Cavalry was stationed at Rienzi, Mississippi, in June, 1862, the officers of the regiment presented the horse to Sheridan, who was then their Colonel. He rode this charger in nearly all the engagements in which he took part, from Chaplin Hills, Oct. 8, 1862, to Appomattox Court House, April 9, 1865.

TALMAGE'S SERMON.

Salvation for the Cities of the Land.

Rev. T. De Witt Talmage delivered the following in the Tabernacle at Brooklyn, taking for his text: "And the men of the city said unto Elisha, Behold, I pray thee, the situation of this city is pleasant, as my Lord seeth; but the water is naught, and the ground barren. And he said, Bring me a new cruse, and put salt therein. And he went forth unto the spring of the waters, and cast the salt in there, and said. Thus said the Lord. I have healed these waters; there shall not be from thence any more death or barren land. So the waters were healed unto this day."

[II. Kings ii., 19-22. It is difficult to estimate how much of the prosperity and health of a city are dependent upon good water. The time when, through well-laid pipes and from safe reservoir, an abundance of water from Croton, or Ridgewood, or Schuylkill, is brought into the city, is appropriately celebrated with oration and pryotechnic display. Thank God every day for clear, bright, beautiful shower, or tosses up in the fountain, or rushes out at the hydrant.

The City of Jericho, notwithstanding all the physical and commercial advantages, was lacking in this important element. There was enough water, but it was diseased, and the people were crying out by reason thereof. Elisha the prophet comes to the rescue. He says:

"Get me a new cruse; fill it with salt and bring it to me."

So the cruse of salt was brought to the prophet, and I see him walking out to the general reservoir, and he takes that salt and throws it into the reservoir, and lo! all the impurities depart, through a supernatural and divine intheir hands and lift up their faces in poisoned fountains or iniquity. the gladness. Water for Jericho-

Fourth Ward.

when he is converted is thoroughly to wash himself. There were, this morning, on the way to the different churches, thousands of men in proper apparel who, before their conversion, were unfit in their sabbath dress. When on the Sabbath I see a man unregard to his moral character are for lack of ablution, God has cleft the world ought to be clean. Away, then, with the dirt from our cities, not only because the physical health needs an ablution, but because all the great moral and religious interests of the cities demand it as a positive necessity. A filthy city always has been and always will be a wicked city.

Another corrective influence that ones, we come to help you." we would bring to bear upon the evils of great cities is a Christian printingpress. The newspapers of any place and we can't stop. Too late!" are the tests of its morality or immorthe street with a roll of papers under at his every step the city is elevated or and they go over. degraded. This hungry, all-devouring they shall read.

of the suffering and the criminal, but until all the newspapers of the land out their hands, and cry: and all the book-sellers of the land set themselves against an iniquitous literature—until then we shall be fighting against fearful odds.

Every time the cylinders of our great publishing houses turn they make the earth quake. From them goes forth a thought like an angel of light to feed and bless the world, or like an angel of darkness to smite it with corruption and sin and shame and death. May God by his omnipotent spirit purify and elevate the American printing-press!

cursor of moral darkness.

It is high time that all city and State authority, as well as the Federal Government, appreciate the awful staare now in New England 191,000 people who can neither read nor write, and in the State of Pennsylvania 222,-000 who can neither read nor write, are being rescued. In one reform any thing that any man with two and in the State of New York 241,000 school, through which 2,000 of the hands could do. Many a man with country.

and good merals.

The officers of the law ought to go down into the cellars, and up into the "What is your other name?" She garrets, and bring out these benighted said: "I don't know." little ones, and put them under educapassed through the bath and under the comb, put before them the spelling book, and teach them to read the Lord's Prayer and the Sermon on the Mount.

Blessed are the poor in spirit, for theirs is the kingdom of heaven. Our city ought to be father and mother both to these outcast little ones. As a recipe for much of the woe and want and crime of our city, I give the words which Thorwaldsen

had chiseled on the open scroll in the "Mary Found". hand of the statue of John Gutening:

Let there be light. I believe the great want of our city is the gospel and something to eat! Faith and repentance are of infinite importance; but they can not satisfy sparkling water, as it drops in the an empty stomach! You have to go forth in this work with the bread of eternal life in your right hand, and the bread of this life in your left hand, and then you can reach them, imitating the Lord Jesus Christ, who first broke the bread and fed the multitudes in the wilderness, and then began to preach, recognizing the fact that while people are hungry they will not listen, and they will not repent. We want more common sense in the distribution of our charities; fewer magnificent theories and more hard work.

Still further: The great remedial influence is the Gospel of Christ. Take that down through the lanes of suffering. Take that down through the hovels of sin. Take that up amid the fluence, and the waters are good and mansions and palaces of your city. fresh and clear, and all the people clap That is the salt that can cure all the

little ones into the light of intelligence reform societies, and they said to her: "What is your name?" She said: "My name is Mary."

So they took her into the reform society, and as they did not know her lost name they always called her "Mary Lost," since she had been picked up out of the street. But she grew on, and after a while the Holy spirit came to her heart and she became a Christian child, and she changed her name; and when anybody asked her what her name was she said:

"It used to be Mary Lost, but now, since I have become a Christian, it is

For this vast multitude are we willberg, the inventor of the art of print- ing to go forth from this morning's service and see what we can do, employing all the agencies I have spoken of for this rectification of the poisoned fountains? We live in a beautiful city. The lines have fallen to us in pleasant places, and we have a goodly heritage; and any man who does not like a residence in Brooklyn must be a most uncomfortable and unreasonable man. But, my friends, the material prosperity of a city is not its chief There may be fine houses and beautiful streets, and that all the garniture of a sepulcher. Some of the most prosperous cities of the world have gone down, not one stone left upon another. But a city may be in ruins long before a tower has fallen, or a column has crumbled, or a tomb has been defaced. When in a city the churches of God are full of cold formalities and inanimate religion; when the houses of commerce are the abode of fraud and unholy traffic; when the streets are filled with crime unarrested and stn unenlightened and helplessness unpitied—that city is in the ruins, house had a porch like that of Rheims, ceried windows like those of Frei-

burg. My brethren, our pulses beat rapidly the time away, and soon we shall be gone; and what we have to do for the city in which we live we must do right speedily, or never do it at all. In that day, when those who have wrapped themselves in luxuries and despised the poor, shall come to sham, and everlasting contempt, I hope it may be said of you and me that we gave bread to the hungry and wiped away wanderer of the street we opened the tian home; and then, through our instrumentality, it shall be known on earth and in heaven, that Mary Lost

A writer in the Philadelphia Ledger takes exception to this and thinks the unconscious satire of the writer does not fall upon the suitors so much as upon himself, on those lingering views and estimates of an earlier day, expressed by that word "necessity." We all know that a great many women are married from neces. sity, because they can not help it, because they want a comrade for life, or a care-taker, or an establishment, or a provider, or a partner. The judgment of thirty years ago certainly maintained that no woman ever earned money or remained single, except for necessity in both cases. Did a bright young girl, in apparently comfortable circumstances, undertake to teach, or sing in a church choir, or sell 'fancy work," instantly the questioning went round: "Is it necessary?" which meant, has bankruptcy set in or heavy losses to brothers, fathers, uncles and all male relatives? Also, when a girl, rich or humble, did not change her name or had not changed it by twentyfive, it was society's judgment that this, too, was the result of necessity and not of free will. A few romances were allowed to count for reasonsfa thfulness to the early dead, or when a mischief maker's work had parted two agreeing soms. We commend this grievance to the champions of women's rights as much more substantial than most of those they are agitating.

The Small Spoon.

Everything you can eat with a small of fruit in newspapers and put them spoon was invented for women. It was a delicate flattery in the male sex thus to infer the dainty size of the female mouth. There is not so much difference in quantity of consumption between the two, but man, being naturally a coarser animal, thinks he has to eat most, and he uses a big spoon. But the little spoon goes oftener to the lips. The fact is that woman's great joke on man is the way she allows him to think things and never undeceives him. A man takes up the bill of fare and smacks his lips and makes a great show of appetite and enjoyment. A woman never simple, innocent way in which she gets so completely hide the defect. away with the menu is delightful. A man howls when he is hungry. tite and fierce demonstration, she has acts the smell. a good square meal, and he thinks she is so delicate.

How seldom nowadays we hear of young men feeling obliged to cripple their own lives by spending the better for the aper of English all they can earn taking care of orphaned sisters as old and as strong Muslins will be more generally worn and as well able to work as them-

It is the independent girl who takes life the most cheerfully and sensibly in whatever path she has to walk. Those I have known go from earning their own living into taking care of homes of their own have proved to be more efficient and happy home-makers than those who went from one state of dependence into another. They recieve more respect and consideration than less independent young wives, and they never go through a year or two of tears and complainings on first discovering that a man can not be an delicate calla lily, with pistil of dia- angel of sweet temper and fine clothes

The independent girl loses her romantic and sentimental notions about men while working among them; but if she gains qualites which fit her to be more truly a companion and friend to her husband, she also gains wisdom which makes her standard of manhood a very much higher one than if she had never seen other men besides

parlor lamp. -- Boston Record. "Be You a Lady?"

into life. Who has not felt the day mother in America, and you used to brighten from a kindly act done them, go about with an empty tomato can, or even from a cheerful good-morn- asking for pennies."

The following pretty anecdote speaks for itself: As a young lady walked and dropping a coin into his outhurriedly down State street on a bleak stretched hand as she passed on .-November day, her attention was attracted to a deformed boy coming toward her carrying several bundles. He was thinly clad, twisted his limbs most strangely when he walked, and looked before him with a vacant stare. Just before the cripple reached the brisk pedestrian he stumbled, and dropped one bundle, which broke open and emptied a string of sausages on the

sidewalk. One or two richly dressed ladies drew their skirts aside; as they passed, one of them exclaimed, "How awkward!" A lad stood grinning at the mishap, and a school-girl, amused by the boy's looks and blank dismay, gave vent to her feelings in a half-suppressed laugh, and then went on without taking any further interest.

All this increased the boy's embarrassment. He stopped to pick up the sausages only to let fall another parcel, when, in despair, he stood and looked at his lost spoils. In an instant the bright-faced stranger stepped to the boy's side, and in a tone of thorough kindness said. "Let me hold those other budles while you pick up what you have lost.'

In dump astonishment the cripple handed all he had to the young Samaritan, and devoted himself to securing his cherished sausages. When these were again strongly tied in the coarse, torn wrapper, her skillful hands replaced the parcels on his scrawny a.ms, as she bestowed on him a smile and said, "I hope you haven't far to

go. The poor fellow seemed scarcely to hear the girl's pleasant words; but, looking at her with the same vacant

"I hope so; I try to be," was the surprised response.

"Why?" asked the listener, her curiesity quite aroused. "'Cause I've seen such as called themselves ladies, but they never spoke kind and pleasant to boys like

me, 'cepting to grand uns. I guess there's two kinds---them as thinks they's ladies and isn't, and them as what tries to be and is."-Youth's Companion. The Little Folks.

Little boy Louie, one evening watcha severe thunderstorm, in which the sheet lightning flashed almost continuously, seemed very much interested,

A little 6 year old girl on Capitol recitation.

avenue had a great affection for the cat. She fondled it, put a cap on its head, and called it her "darling baby doll." A few weeks since a real baby sister came to the house "with the doctor" one night. The little girl was delighted. "It's a real baby sister, and a live one, isn't it, mamma?" she said. "Yes, certainly," said the mother. Without saying a word the little girl went down stairs, found the cat, and kicked it out of doors, saying: "Clear out, you old fool, you ain't a live baby, and we don't want you here. - Hartford Times.

Constance is very young, but she is also better worth quoting than most grown people. Her envy was somewhat aroused by the fact that a wedding was about to take place in the family of her little playmate and that the playmate thereby had the advantage of her; so she remarked very complacently, to her little friend's mamma: "Mrs. - did you know that I was engaged to be married?" "Why, no, Conny. Is that so?" "Yes, ma'am; I'm engaged to Fritz Ward" (small boy of her acquaintance). "He doesn't know it, but I've got to explain it to him." "Well, Conny, do you expect to be married soon?" "Well, I hope so. The fact is, I'm tired of being spanked, and I think we'll be married

The following composition by a young pupil in school is new and inup his hole command to the British In families of moderate means for a sertain sum of money, money

Time's Changes.

In 1863, among the crowd which came one day to President Lincoln's ante room, seeking an audience, was a white-haired, bent, old man, whose son had been condemned to be shot as a deserter. He came to plead for the boy's life. The President promised to look into the case, and bade him to return at the same hour the next day. When he came, his agitation was so great that he was unable to speak.

Mr. Lincoln placed the pardon in his hands, and the old man, after a few choking words, left the room.

"That is Mr. Blank, of Illinois," the I'resident said to a friend. "He was the great man of his district thirty-two years ago. I was the hired man in the family where he often visited. I suppose he has forgotten me," he added, simply, apparently unconscious of the change which time had brought to

Youth's Companion. A Sensible Princess.

For a person of only seven years' experience, the good sense shown by the child-princess Charlotte was really remarkable. Her music-teacher, who was silly enough to think that a princess without flattery was like a luck without water, once highly commended her execution when she herself knew that it was faulty and deserved no praise at all. The room was filled with other people who had similar opinions about princesses and ducks; and all, when she appealed to them, declared that her Royal Highness had played in a manner to ravish the ears of angels. She knew better, but said no more at the moment. When Master Teacher came next morning for a lesson, however, he found his pay and a discharge ready for him; also a piece of advice from her little Highness, that "he should never indulge error in a pupil where he was employed to perfect the unskillful." Thus Charlotte showed her power of reasoning and her mastery of the English language, rebuked a flatterer, and procured for herself a very pleasant little vacation,-the finding of another suitable teacher being a work of time and deep British deliberation.-St. Nicholas.

"Double Up, Lucy."

He was learning to spell and read at the same time, and his text book was a First Reader. His chief stumbling stone was a double letter. When he came to the word "feel," instead of spelling "f-double e-l, feel," he would say "f-e-e-l, feel," repeating the double letter twice. It took weeks to impress him with the necessity of saying "double" whenever he found two let-

ters together, but he learned it at last. One day, toward the close of a vacation, during which he had grown rusty, he was brought out before a company of ladies and gentlemen to read any piece they might select in his First Reader. His mother watched him with trembling anxiety, but he appeared to feel himself equal to the occasion. A young lady among the company selected a little poem which

began with this line: "Up, up, Lucy, the sun is in the sky." The embryo logician took his place in the centre of the parlor floor, made property worth, John?" inquired the ever after being sponged with chlorolows: "Double up, Lucy, the sun is in the sky." He never finished the

Aug. 7, Baptist

"Baby Morris," aged two years, only son of Mr. and Mrs. M. S. Hall. Wide opened the gates long ajar, that the little feet so soon tired in the ways of earth might enter into perfect rest. Baby hands unclasped from the hold of the best-loved of earth that Jesus might take the little one into his arms for an infinite blessing. The prelude of musical lispings ended here, for the glad chorus of hosannas in the heavenly home. Asleep for the night-time of earth! Awake forever in the fullness of joy of heaven's new morning.

"Oh, for the faith to grasp heaven's bright forever, A mid the shadows of earth's 'little while'.''

Sudden Summons.

Last Thursday afternoon, Col. Henry Whiting, of St. Clair, who was visiting his niece, Mrs. J. H. Hopkins in this city, was stricken with paralysis, and died before medical assistance could be summoned. The deceased was a prominent citizen of the state, graduating at West Point in the class of 1840, with Sherman and Thomas, serving with honor in the war of the rebellion, and afterward as Regent of the University and in other positions of trust. He was an active member of the Methodist church, and had been nominated for Congress on the greenback ticket. His son, J. R. Whiting, is the democratic Congressman-elect from the St. Clair district. The remains were taken to St. Clair for burial Friday morning. His age was 79 years.

Between 5 and 6 o'clock the same afternoon, Mr. L. Van Valkenburg, who had arrived here with his two sons from the west a few days before, suffered an attack of the same disease. while sitting in the office of the Hawkins House, and died two hours later, without recovering consciousness. So stealthy was the approach of the foe that the attendants and others in the office thought him merely dozing in his chair, until an effort was made to arouse him for supper. Mr. Van Valkenburg formerly owned a farm near this city, but sold it some years ago, and retired from active business, spending some time in Florida, and with a sister in Illinois, and this city and else-

in Illinois and had come here to pass the summer. Some three years ago he otent Hall, on Chicago avenue, where suffered an attack of paralysis, from addresses were delivered by Rev. Green- which he had partially recovered. The bury Polk of Ann Arbor, Rev. Max remains were forwarded Friday eve-Smith and Rev. Mr. Saunders. The Yp- ning to Syracuse, N. Y., his former home, for burial. Deceased was in his

Sudden Death.

Just as our forms are being taken to the press we learn of the death of Mr. William R. Post, which occurred at 10 o'clock this forenoon, from neuralgia of the heart. The death of Mr. Post, we are informed, was unexpected and sudden, his last illness being only since 3 o'clock this morning.

The time of the funeral has not vet been definitely decided, but is probable that it will occur Saturday evening, at o'clock, if the presence of Bishop Harris can be secured at that time.

The deceased was in his 86th year. He was an Ypsilanti pioneer, and his life has been closely identified with the interests of this city. His wife and two daughters, Mrs. Lucy A. Hewitt, wife of Edward Hewitt, Miss Helen Post, and one son, Mr. Samuel Post,

The University Commencement and

Semi-Centennial Jubilee. This has been gala week indeed at Ann Arbor. In addition to the usual exercises of the commencement season, there is a jubilee celebration of the semi-centennial anniversary of the institution, with unusual attendance of members of the alumni.

Sunday evening, Prof. Frieze delivered the baccalaureate sermon, on "The University in Its Relation to Religion,' maintaining it to be impossible that the institution could be other than helpful to religion. He hoped for the day when all the denominational colleges of the state should be clustered about the University, and all united in mutual helpfulness.

Class day exercises of the several departments were had on Monday and Tuesday. A tremendous orgie was indulged in Monday evening, making Ann Arbor howl. Alumni reunions of the various departments, and society banquets, occurred on Wednesday, and on Wednesday evening the grand commencement concert, including the first part of Mendelssohn's oratorio of Eli-

To day, Thursday, is devoted to the Commencement proper, and the commemoration jubilee, with a grand banquet in the pavilion at 1:30.

Watch the Smoke.

How often we hear the remark, "We shall have rain; the atmosphere is so The reverse is true. When one sees smoke hanging from a chimney, with a tendency to sink to the ground, it indicates that the atmosphere is light in fact, too light to float the smoke. When the smoke rises from the chimney it indicates a heavy atmosphere. A column of smoke is not a bad barometer, for a barometer is nothing more than a recorder of the pressure of the atmos-When the atmosphere is light and the smoke settles the pressure on the mercury is light and the column falls, indicating storm. When the atmosphere is heavy and the smoke rises the pressure is greater and the column rises, indicating fair weather.—Chicago Herald.

Problem of Bottled Sugar.

The author of "Under the Punkah" tells an amusing incident of his life in India. He had given to a tame monkey a lump of sugar inside a corked bottle. The monkey was of an inquiring kind, and the effort to get at the mystery-and the sugar -- nearly killed him.

Sometimes, in an impulse of disgust, he would throw the bottle away, out of his reach, and then be distracted until it was given back to him.

At other times he would sit with a countenance of the most intense dejection, contemplating the bottled sugar, and then, as if pulling himself together for another effort at solution, would sternly take up the problem afresh and gaze into the bottle. He would tilt it up one way and try to drink the sugar through the cork, and then, suddenly reversing it, try to catch the sugar as it fell out at the

Under the impression that he could catch it by surprise, he kept rapping his teeth against the glass in futile bites, and, warming to the pursuit of the revolving lump, used to tie himself into regular knots round the bottle. Fits of the most ludicrous melancholy would alternate with these spasms of furious speculation, and how the matter would have ended it is impossible to say.

But the monkey got loose one night and took the bottle with him; and it has always been a delight to me to think that whole forestfuls of monkeys have by this time puzzled themselves into fits over the great problem of bottled sugar.-Youth's Companion.

Flower of the Stuarts.

Very few people know that, as the violet was the chosen flower of the Napoleons, scarlet carnation was the chosen flower of the Stuarts. To this day mysterious hands yearly deposit at Frascati, and in St. Peter's, in Rome, where lie the remains of the cardinal of York and other members of the house of Stuart, wreaths of scarlet carnations.—Chicago Herald.

George Francis Train.

George Francis Train says that when he stopped eating meat, thirteen years ago, and began living on fruit and grain he weighed 210 pounds. He now weighs 180, and as he is six feet in height, he thinks he has the correct proportion. He has not been ill an hour since he began fasting.—Chicago Tribune.

There are over 200 varieties of violets.
